

**Brian Rice**

Brian Rice has over 30 years of logistics experience, with almost 20 focused on the life science industry. His unique background has allowed him to consult on the implementation of some of the largest and most complex sample management programs in the US.

A recognized logistics expert, Brian has worked with many of the largest and many small pharmaceutical manufacturers developing sales sample solutions that meet specific needs for compliant, flexible and cost effective programs.

Prior to joining Priority Solutions International in 2008, he worked for many years in pharmaceutical reverse logistics specifically engaged in some of the largest pharmaceutical recalls in industry history. He also has over 15 years' experience working for the largest package integrator in the world.

Brian spent many years on the Board of Directors of the Indianapolis Council of Logistics Management and is a member of the American Society of Transportation and Logistics.
